My experience at Fast Signs, I need to be able to multi task as well as keep track how much time I am spending on one job. Always trying to thing ahead by laying out what job need to get done first and find what I will need to get so, the job can be done with the less amount of mistake and always asking for help when needed. Also getting the rush jobs done quickly and correctly for the customer while still meeting other deadlines. One of many thing I have learned working in Fast Signs was as long as you are eager to learn a skill and practise it, that is the one way you can more effective in the job sight.

Thank you for looking at my resume and hope to hear from you soon, have a great day sincerely.
